Brett Spear **from** Lexington, KY

Brought my 2001 VW Golf over from Lexington for major repairs based on a recommendation from a friend in Georgetown. Was extremely pleased with the work and the price, and felt that I was treated honestly. Well worth the short drive from Lexington and would definitely return.

I have done business with these guys several times and I always get treated with respect. I believe that Billy is one of the most knowledgeable automotive techs in this area. This man has over 30 years experience with eropean cars, and it shows in the quality work that he does. I recommend to anyone with a foreign or domestic car to take it to these people. You will not find a more honest, respectful, efficient automotive technician anywhere else in Frankfort KY. I promise.

Secrets out Frankfort!!! Excellent foreign auto repair right here in the Capital City without emptying a gas tank driving to Lexington or Louisville. ...we had been taking our Volvos to Louisville for service, but because of Links2Frankfort and Billy's thorough automotive excellence, Billy & Jeff have earned our confidence & repeat business.

When I first got my vw I was taking my car to Lex or Louisville to get my car serviced. For the last 5 years I have trusted Billy & Jeff @ capital Automotive to take care of my car.

These guys are fast friendly & know what they are doing & the best thing is I don't have to find someone to run me 35-55 miles away to get my car worked on to drop & pickup my car, & I don't have to worry about it getting done right.

2 thumbs up

I have taken two sports cars to Capitol, a Mercedes and a Jaguar, over the past few years. I keep coming back because I trust Billy and Jeff to only fix what's wrong and at a reasonable price. I took the Jag to the dealer in Lexington and was told I was facing a \$4,500 head gasket repair. Billy looked at it and found it was only a heater hose(\$250). Not only do they do good work, you can TRUST them to not stick it to you. I'd highly

recommend them to anyone, regardless of what type of car you own but especially if you have a foreign car.

Billy and Jeff kept my both Nissan Pathfinders going for over 250,000 miles. They are great to deal with and very reasonable. Transmissions, timing belts, water pumps, body work, emission system. They have done about everything that I can't do myself. I've put a lot of miles on vehicles commuting to Frankfort everyday. I first meet Billy in 1997 and have been retuning ever since.

Billy took my VW Beetle in when no one else wanted to even look at it. He saved me a ton of money by not having to go to the dealership, and it's never ran better. CA has my business from now on.

I've been taking my vehicle to Billy and Jeff for over a year now. They do excellent work and stand behind everything they do. They are honest, hard working people who aren't just out to make a dollar off of you, they truly care about their customers. I recommend Capital Automotive to anyone who needs auto repairs!

I can not find anyone where I live to work on my VW. I always bring it to Capital Auto for service (80 miles). They have replaced 2 timing belts on my car and it runs great. They are much cheaper than the dealer. They will work on my Jetta as long as I have it.

**These guys rock! (★★★★★) - 07/29/2010 16:03:46**

For over 4 years I've been driving 50 miles to have Capital work on my VW. The work is done right at a fair price - what else can you ask for. My Jetta just rolled over 200K miles, and thanks to Billy & Jeff she keeps running like a top.

I have a Subaru that had an AC problem. While I was told that it is not uncommon and I may have to replace the compressor, my AC now works fine thanks to the competence and knowledge of those at Capitol Automotive. Any place else I'd have a new compressor and a lot less money. Thanks for problem solving!!!
